PAVEMENT WILL BE LAID ON S. MAIN ST.

Property Owners Must Have Walks Ready and Gas and Water Connected by July 7.

The Common Council voted, last night, to lay permanent pavement on South Main street, following a favorable report by the committee on streets, which was apparently drawn prior to the hearing which was given to property owners. W. S. Teel, Jr., of the Locomobile Co. of America, appeared for the project. He said that the estimated cost of the pavement to be laid is 2,007 feet. That owners of property representing 1,157 feet favored the project; that the owners of 818 feet were non-committal and the owners of 535 feet opposed. The assessed value of the property involved, he said, is \$450,560; the assessed value of the property whose owners favored the pavement was \$378,240 and that represented by those opposed \$47,400. Jerome Cook appeared against the proposition. He presented a remonstrance which was signed by himself, R. C. Lockwood, E. Nugent, Mrs. Laidlaw, Joseph and William Cook, Mary Augustine, Mary Melton, S. Siegel, Theresa Oakley and Barbara Meyers. He held that Broad street is a more direct avenue of travel to Seaside park than Main street and if the park commissioners want a street paved to the park they should select Broad street.

Park Commissioner G. M. Eames, Park Commissioner Charles H. Hansen, Patrick Sullivan and Philip McNeill also favored the pavement. The new pavement will be laid from Atlantic street to Seaside Park. Property owners are ordered to relay their curbs and sidewalks and make proper connections with gas and water by July 7.

ANDERSON AND REDGATE WILL BE CAPTAINS NOW

Police Officials Who Have Given City Long and Faithful Service Rewarded With Promotion and Increased Pay.

The Common Council at its meeting last night promoted and increased the salaries of two police officers. The officers promoted by the committee on ordinances, by which the two lieutenants of the police department are raised to the rank of captains, are William Anderson and John H. Redgate. They have been faithful members of the department for many years.

PROF. G. B. FOSTER DROPPED BY THE BAPTISTS

Chicago, June 22.—Prof. George Burman Foster of the University of Chicago, whose denial of the divinity of Christ in a recent book has stirred up much resentment, has been dropped from the Baptist Ministers' Conference of Chicago.

His acts and general confusion made the meeting yesterday one of the stormiest ever held by churches in Chicago, and it was referred to by one preacher as resembling a political meeting in a rowdy ward. Preachers who had been howled or hissed down sat with flushed faces while the Chairman pounded for order.

The young son of Prof. Foster was present. "It's a shame and unfair!" he shouted as he left the hall. The insistence of the Rev. Dr. A. C. Dixon of the Moody Church that Prof. Foster be dropped for a time brought the fight around to himself. The Rev. Dr. D. D. McLaughlin quickly asked a committee to investigate Dr. Dixon's right to membership in the conference. This motion was hissed down, and Dr. Dixon explained that he joined the Baptist Church in New York.

Dr. M. P. Boynton came in for a hissing when he said:

"We are not going at this matter right. Foster is as good as Myers or any one here and—"

The Myers he referred to is the Rev. Dr. Johnston Myers, one of the chief assailants of Prof. Foster. Some of the ministers tried to check the hissing, but Dr. Myers shouted: "It is no worse to him than to have those present denounced as Dr. Boynton is doing. The hisses should not be stopped unless Dr. Boynton is stopped."

Dr. Boynton attempted to introduce a resolution to drop Prof. Foster, whereat he was assailed by Dr. A. H. Harnley.

"This matter was decided for good and all, last week," he shouted. "Dr. Myers promised on his honor that if he didn't get his resolution through then he would not again bring it up. Now, he is doing exactly contrary to his promise."

Dr. Myers, coolly, "I promised not to reintroduce that particular motion because my motives had been questioned. Specific charges were made, and that is what I have here today."

Motions, counter-motions, and a parliamentary mix-up generally followed. After four hours, however, worn out by their exertions and emotions, the preachers adopted the resolution dropping Prof. Foster from the conference. The little more than half price power to expel him from the Church.

Pardoned Bank Wrecker Makes Another Haul

Kansas City, Mo., June 22.—J. E. Marcell, once sent to the penitentiary for swindling aggregating \$300,000 but pardoned by Gov. Hoch, is again a fugitive, charged with more than \$25,000 of fresh swindling.

Marcell was the cashier of a bank in Highland, Kan., five years ago. He defrauded banks in Kansas City, St. Louis, Chicago, and New York out of \$300,000 and wrecked the bank in Highland. He ruined the bank and his father-in-law and swindled even his father. He was convicted and sentenced to thirty-five years in the penitentiary.

Pleas of his wife and mother prevailed upon Gov. Hoch to pardon him fifteen months ago, and the family all sided in the attempt to rehabilitate him. He has cheated his father out of \$2,600. He has forged the name of his wife to a deed to the house in which she lived in Highland. He appealed to the banks in Kansas City as a man who wished to correct the mistakes he had made. He was wise, gentle, and unassuming and they believed he had reformed and trusted him.

"On Monday morning three weeks ago," his wife said, "he kissed me and the children good-bye as usual, and went away, promising me that he would be back Saturday night. I have not seen him since. I do not know where he is."

The same Monday he called on his father and mother. He seemed loath to leave them.

HORSES RIDE IN BARRELS

Marvelous Schumann Stallions Are with Ringling Brothers' Circus

Imagine a horse allowing itself to be rolled around in a huge beer barrel. Imagine two other horses waiting together on their hind legs. Then imagine twelve horses jumping from large glasses, and you have some idea of the wonderful Schumann performing horses and the great act they are doing with Ringling Brothers' circus. The few feats mentioned are but a few of the many seemingly impossible performances of these wonderful animals. In all the history of animal training there has been no other act to match this one.

Another wonderful act is that of the Lorch family of acrobats, who use horses and donkeys in their remarkable performance. This family is absolutely without an equal. The Arthur Saxon trio of strong men, who, together, lift four and one-half tons; Robidello, the Mexican wizard of the high wire, and the telephoning elephants are a few more of the sensational numbers that are new to Americans.

The performance closes with the most dangerous and thrilling of all the many thrillers, the double automobile somersault flight through air of Miss La Belle Roche.

Some of the novelties of the parade are a team of chariots, a twenty-camel team driven by one man and pulling a huge tableau, several teams of elephants and a team of zebras which are supposedly unbreakable animals.

All of this and much more that is wonderful will be seen in Bridgeport on Friday, June 25, which is the date of the exhibition here. The show has been enlarged and improved in many ways since it was last seen here. In fact, it is now so large that the task of hauling it from town to town is testing the capacity of the railroads to their utmost limit.

AUGUST BELMONT TURNS FIRST SPADE IN CAPE COD CANAL

(Special from United Press.)

Boston, June 22.—Armed with a silver spade, August Belmont, the New York banker, to-day at noon turned the first spade of earth on the work of constructing the Cape Cod Canal. The ceremony was on the old Perry estate at Buzzards Bay where the ancestors of Commodore Perry of Lake Erie and the direct ancestors of August Belmont, on his mother's side were born and lived. Belmont is head of the Degnon Construction Company which will build the canal. The canal will run from Buzzards Bay to Barnstable Bay and will shorten the New York-Boston route 74 miles, via Vineyard Shoal route and 142 miles by the outside sea route. It will afford a route avoiding a region unfavorably affected by storms and fog which in maritime history has met delays and frequent loss of life and ships.

The scientific and exclusive manner in which Wissner Pianos are constructed is a revelation to most piano buyers.

They cannot understand the necessity for such painstaking attention to every detail.

It would be an impossibility to secure better materials, or to devote more time to the manufacture of a Wissner Piano.

Future generations will understand and appreciate the present day product of the Wissner factories.

Every Wissner Piano that leaves our factory goes forth to solidify the present enviable reputation and create a greater and higher one for the coming generation and posterity.
